ELVEDES®

2024

PRODUCT CATALOG

LET'S GO THE EXTRA MILE

Welcome to Elvedes, your trusted partner in the world of cycling. Dedicated to providing premium quality products, we ensure that every bike can be safely brought back to the road. From our base in the Netherlands, we proudly support bicycle manufacturers, wholesalers, and retailers all across the globe.

In the world of cycling and beyond, Elvedes is **your reliable partner for just-in-time deliveries.** Our well-structured stock-keeping strategy of semi-manufactured goods and our advanced assembly facility allows us to deliver innovative, high-quality solutions tailored to the needs of cycling professionals and enthusiasts alike.

This catalog presents an extensive range of our aftermarket products and **serves as a comprehensive handbook** for selecting the right disc brake pads, bearings, and bottom brackets using Elvedes' product guides.

Wherever in the world you're reading this, thank you for choosing Elvedes as your trusted partner. Our product catalog is a gateway to exploring premium quality products as well as an open invitation for new distribution partners to join us on our journey. With craftsmanship and enthusiasm, **we spread the joy of cycling together.**

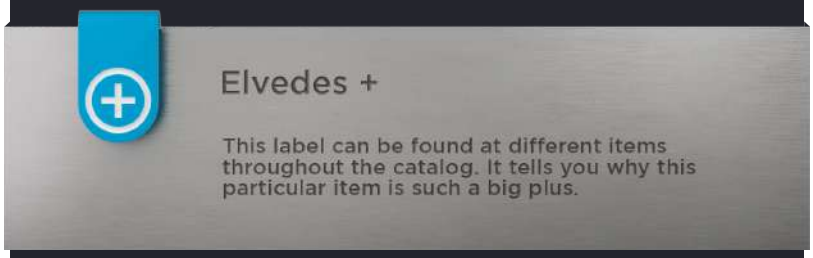
+

A LITTLE EXTRA

Plus, a word derived from Latin, meaning 'more'. Ever since Elvedes was founded, we have always been striving to do a little more. With the introduction of high steerers for mopeds in the sixties, the existing moped cables needed some more length. The demand caused Elvedes to add more different cables to the range, not only for mopeds and bicycles, but for all kinds of purposes, made to measure.

Through the years, more and more of bicycle service parts have been added to the range. Convenient displays for more overview and an organized workshop. Disc brake pads, but more than just the most common ones. Rim brake pads, but also with special compounds which are more silent and more powerful. Twist fit bottom brackets, which not only add more stability to the bearings, but are also more durable because the bearings themselves can be replaced when worn. And many more.

We think that these smart additions and solutions would make the life of the mechanic or consumer just that little more convenient. To put these items to everyone's attention some more, we introduce the Elvedes + label, by which they can easily be recognized throughout this catalog. The label, along with a single highlighted sentence, explains why that particular item is such a big plus.



® Alhonga, Assess, Avid, Cannondale, Campagnolo, Cervélo, Clarks, Cowboy, Diatech, Formula, Giant, Grimeca, Hayes, Hope, Logan, Magura, Nutt, Praxis, Promax, Quad, RST, Shimano, SRAM, Suntour, Tektro, Trek, TRP, Truvativ, VanMoof and Zoom are registered trademarks and the property of the companies listed here. Subject to product changes, misprints and printing errors.

DISC BRAKE PAD GUIDE

HOW TO EXTEND THE LIFETIME OF YOUR DISC BRAKE PADS

Bed-in disc brake pads extend the life span of the pads considerably! Squeeze them in carefully and ensure that the pad just audibly touches the brake disc for approximately 100 metres at a speed of ±25 km/hour. Now squeeze a little harder on the brake so that the speed decreases to approximately 5 km/hour, and then slowly increase the speed while gently squeezing the brake. Repeat this 10-12 times and the pads are worn in. Never brake to a stop with the brake still squeezed in order to prevent damage to the rotor. Always bed-in the front and rear brakes seperately.

GREY

+ Super soft compound
+ Noise reducing
+ For any noisy disc brake
+ Excellent problem solver

BLUE

+ Soft compound
+ Comfortable and reliable
+ For gravel bike, road bike, trekking bike and MTB
+ Excellent for daily and sporty use

BLACK

+ Medium compound
+ Powerful
+ For cargo bike, e-bike and MTB
+ Excellent for heavy duty

GOLD

+ Hard compound
+ Wear and heat resistant
+ For commercial cargobike, e-bike and downhill MTB
+ Excellent for intensive use

RIM BRAKE PAD GUIDE

BLACK COMPOUND

- For steel and aluminium rims
- Developed for dry conditions
- Excellent for city bike / trekking bike / racing bike

BLACK/RED COMPOUND

- For steel and aluminium rims
- Developed for wet conditions
- Excellent for MTB

WHITE COMPOUND

This brake pad is specially developed for comfortable, powerful braking. Its unique white compound is silent and doesn't contaminate the rims with black residue.

WHITE COMPOUND

- For steel and aluminium rims
- For more brake power
- For less noise
- Developed for dry and wet conditions
- Excellent for E-bike / racing bike / BMX

BLUE COMPOUND

- For carbon rims only
- Developed for dry and wet conditions
- Excellent for racing bike / BMX

How to replace
V-brake pads

ORDER QUANTITY

XXXX -CARD
All rim brake pads can be ordered per card, containing 1 pair.

XXXX -BOX
Select rim brake pads can be ordered per box, containing 25 pairs.

Fits Caddy display (page 78)

XXXX-BAG100
Select rim brake pads can be ordered in a bulk bag, containing 100 pairs.

VOLUME BOX

All Elvedes outer cables have MoS_2 enriched liner for lower friction and higher performance.

The outer cable volume boxes come with an easy pull reel made of 100% recycled and 100% recyclable plastic.

The boxes are also equipped with a unique GripClip, which prevents the outer cable from slipping back into the box after cutting.

Fits Boxer display (page 76)

The cable type is indicated by the letter A,B, C or D

HYDRO HOSE VOLUME BOX

20 meters hose

Fits Elvedes parts only

Fits Boxer display (page 76)

2012030 Black

2012031 White

VOLUME BOX

Elvedes hydro hose is reinforced with a Kevlar housing and has a PTFE liner, which makes it suitable for both mineral oil and DOT fluid. The hydro hose volume boxes come with an easy pull reel made of 100% recycled and 100% recyclable plastic. The boxes are also equipped with a unique GripClip, which prevents the hose from slipping back into the box after cutting.

sealing cap
1 pce

2020120
Compression device
26mm
For 1⅛" carbon tube
Incl. bolt and top cap
1 pce

2020121
Standard steel star nut
For 1⅛" metal tube
5 pcs

2020135
Rubber sealing cap
For 5mm socket bolt
10 pcs

PULLEY WHEELS

All pulley wheel bearings are produced complying with ABEC 3 or ABEC 5
All pulley wheel bearings are provided with extra grease for higher durability and performance.

2 × 10 TEETH

CP2017231
1 set
ABEC 3 with extra grease
Stainless sealed bearing

Including spacers compatible with:
A - Shimano 8 speed
B - Shimano 7 speed, Campagnolo 8 speed
C - Campagnolo 9 / 10 speed
D - SRAM (one hole upper pulley) 9.0SL ('98) / 9.0 ('97 - '98) / 7.0 ('97 - '98) / 5.0 ('98 - '99)"

2 × 11 TEETH

2017086-BOX
10 sets

2017086-BOX25
25 sets

ABEC 3 with extra grease
Stainless sealed bearing

Including spacers compatible with:
A - Shimano 8 / 9 / 10 / 11 speed & 10 speed GRX
B - Shimano 7 speed, Campagnolo 8 speed
C - Campagnolo 9 / 10 speed
D - SRAM 7.0 / 9.0 ('97 - '99)"

2 × 11 TEETH

CP2023086
1 set
ABEC 3 with extra grease
Stainless sealed bearing

Compatible with Shimano 12 speed

11 + 13 TEETH

2022004
1 set
ABEC 5 with extra grease
Stainless sealed bearing

Compatible with:
Shimano 11 speed GRX
RD-RX810-GS
RD-RX812-GS
RD-RX815-GS
RD-RX817-GS

SRAM Rival 1 / Force 1 1×11 speed

12 + 14 TEETH
CP2017102

ABEC 5 with extra grease
1 set
Narrow / wide
Stainless sealed bearing

Compatible with:
SRAM Eagle XX1 / X01 / NX / SX / GX 1×12 speed
and 2×11 speed MTB

2 × 12 TEETH
2020097

ABEC 5 with extra grease
1 set
Narrow / wide
Ceramic hybrid bearing

Compatible with:
SRAM Force / Red eTap AXS

12 + 14 TEETH
2020098

ABEC 5 with extra grease
1 set
Narrow / wide
Ceramic hybrid bearing

Upgrade for:
SRAM Force / Red eTap AXS

BOTTOM BRACKET GUIDE

GET STARTED

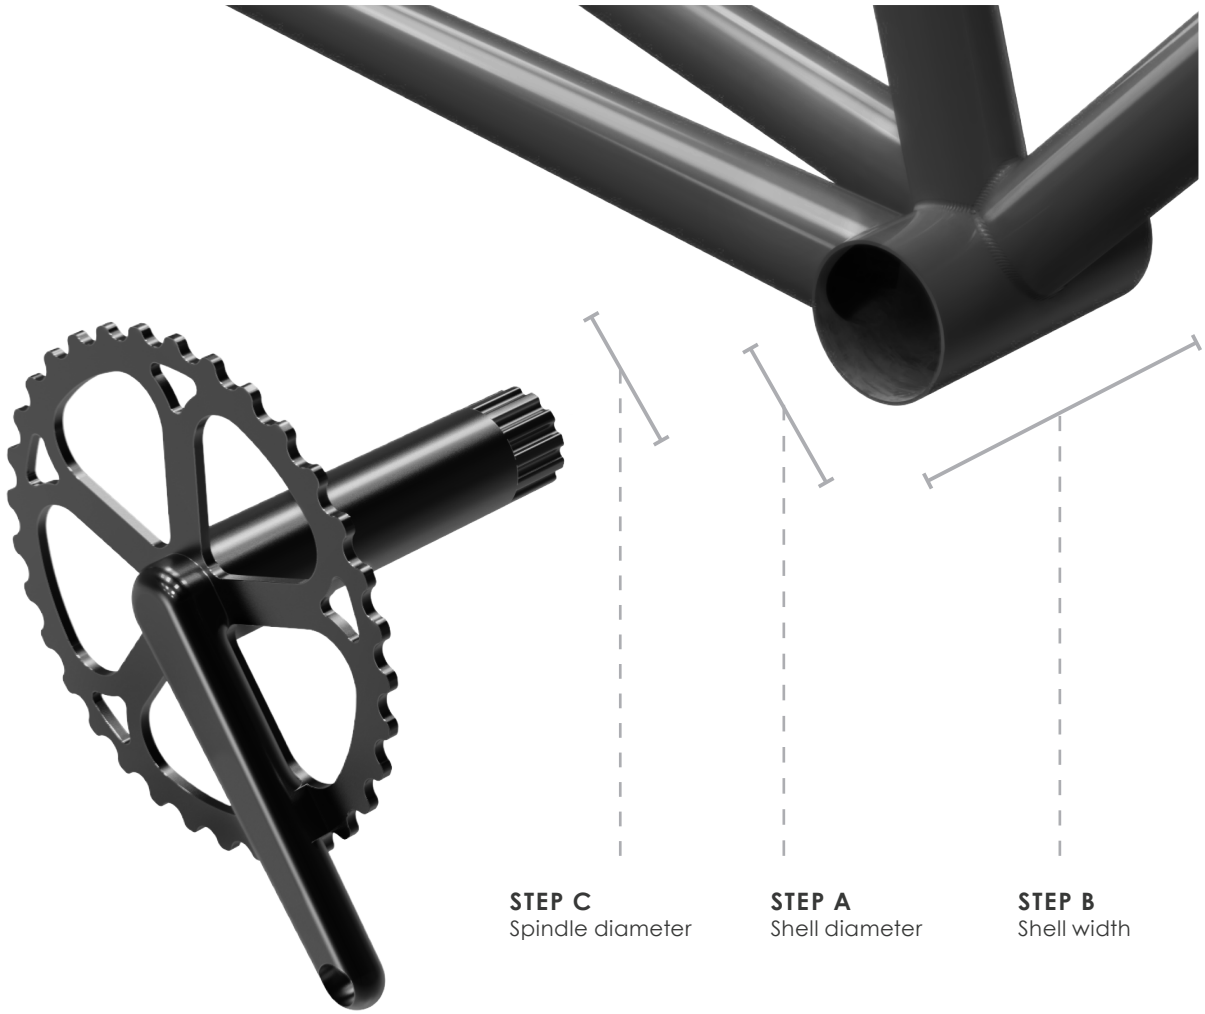
A bottom bracket shell can be threaded or non-threaded, called thread fit and press fit respectively. It is important to know which type of shell you're working with and what the shell diameter and width are, in order to select a fitting bottom bracket.

The most common thread types in thread fit shells are BSA (English thread), ITA (Italian thread) and T47 (M47×1). A thread type bottom bracket is interlocked directly with the shell. Press fit shells come in various diameters and widths, most commonly PF30 (Ø46mm), BB30 (Ø42mm) and BB86/92 (Ø41mm). Press fit bottom brackets are pressed into the shell using a press-in tool.

Another dimension you need to know in order to select a fitting bottom bracket is the spindle diameter. Different brands and models can vary widely, from Ø30mm to tapered versions like Praxis (Ø30mm – Ø28mm). Differences between brands can also be as little as a few hundreds of millimeters.

Elvedes offers a basic range of bottom brackets, which can be easily adapted to specific types of spindles such as FSA Mega Exo and SRAM / Truvativ GXP using specific bearing caps or reducer kits.

Knowing all three dimensions, the guide on pages 62 – 64 can be used to select the perfectly fitting bottom bracket.



Elvedes also offers an enhanced version of the press fit bottom bracket, called the twist fit bottom bracket (see page 58-60). The twist fit bottom bracket can alternatively be used in a press fit shell. Replacement bearings and bearing caps are also available for maintenance.

TWIST FIT

Tools required: 2018086 Bottom bracket wrench

[1] Convertible to GXP with GXP reducer kit (2018080)
[2] Convertible to FSA with FSA bearing caps (page 65)

LOW MAINTENANCE COSTS
Only the bearings can be replaced for service maintenance, while the bracket stays in place.

PERFECTLY IN LINE
The threaded interlocking cups allow the spindle to run freely without squeaking and creaking.

EASY INSTALLATION

Shimano bleed bolt (7 mm)
For easy access to compression
bolts (8 mm)

CROWS FOOT SPANNER 8MM

2020094

For compression bolts (8 mm)

Fits ¼" torque wrench

BASIC HOSE CUTTER

2019042

For smooth and burr-free cutted hydraulic hose
Prevents leakage and damage of the hose

For consumer use

Spare blade included inside

PROFESSIONAL HOSE CUTTER

2019124

For smooth and burr-free cutted hydraulic hose
Prevents leakage and damage of the hose

END PRESS

2017159

For fast and easily pressing inserts and banjos into hydraulic hose

Not suitable for Magura
HS11/33

SPARE BLADE

2019232

For Hose cutter 2019124

SPARE INSERT DRIVER

2018112

For End press 2017159
